

# Ansell Garden Centre

## SECTOR:

Building, Garden Centres

## OUR ROLE:

Main Contractor

## LOCATION:

West Drayton,  
Harmondsworth

## CLIENT:

Ansell Garden Centre

## PROJECT VALUE:

£1.65m

## DURATION:

34 weeks

## OVERVIEW:

Our Contract was to Design and Build a new 5,300m<sup>2</sup> Garden Centre.

## SCOPE OF WORKS:

Our scope included the site clearance, cut and fill, car parks, services, drainage, pad foundations, floor slabs, steel frame, cladding, roof with both standard and Polycarbonate panels.

The project also required the installation of a sewage treatment plant, a new substation, HV feed and boundary fencing.

The full handover of the new store was completed within 34 weeks. This fast-track programme saw the store ready for Christmas opening.

Natta has also completed Phase II which was to upgrade the existing open air sales area. The works included the removal of the old outdoor area, trees and concrete access roads, as well as the renewal of the existing sales area with 3500m<sup>2</sup> permeable tarmac using recycled rain water irrigation system.

See next page for more

"The Natta team worked hard to ensure this fast-track contract completed to a high standard ready for their Christmas opening."

**Matt Sainty**

COMMERCIAL DIRECTOR, NATTA
